

C2G 1ft (0.3m) 18AWG Power Cord (IEC320C14 to IEC320C13) - White Part No. CG-17479

When working in a wiring closet or a cabinet space is limited and cords can easily be misidentified and disconnected causing detrimental downtime. Perform maintenance tasks with confidence by using color power cords in a data environment allowing for quick and accurate identification of equipment.

Power Up

Connect PDUs to servers, switches, or other data center equipment. This cable can deliver 15 Amps up to 250 Volts to any connected device ensuring correct operating power

Level Up

Each color power cable is constructed to the highest industry standards, to ensure high-quality installs and deliver the stability and durability that is needed for reliable network performance.

Maintain Excellence

UL listed

Allow IT technicians to perform maintenance tasks with confidence and easily locate equipment based on functionality or location, saving both time and money using color coded power cables.

Constructed of heavy duty 18AWG conductors

Features & Benefits

Full length color jacket with matched color connectors

Rated up to 250V 10A
