

Ordinary, "included in the box" f-type cables often use low quality materials with inferior shielding, and that can result in poor picture quality. Constructed from 75 Ohm coaxial cable to deliver high quality video, this cable can deliver all the detail, color and brightness you expect from your audio/video components. Ideal for attaching cable boxes, VCRs, MSN TV or any video source with f-type outputs to any TV with matching f-type inputs.

Low loss 22 AWG steel center copper-clad wire and foam dielectric provide accurate picture resolution and color. A foil and braid shield protects against unwanted noise and interference. The 24K gold-plated heavy duty connectors ensure long-lasting, corrosion-free connections. The flexible PVC jacket enables easy installation while fully molded connectors provide excellent strain relief to keep your cable intact.

Features & Benefits

Designed to connect a composite video source to a composite receiver or display

Shielded to prevent unwanted noise and interference

24-karat gold-plated heavy duty contacts

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120270300	Country Of Origin	China
Application Sector	Commercial, Residential	Warranty Type	Lifetime
Type	Cable		

Dimensions

Product Length US	6.0 FT	Cable Length	6 ft
-------------------	--------	--------------	------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	22 AWG
Cable Type	Audio, Video	Jacket Rating	Standard / Non-Rated

Cable Diameter	6 mm	Adapter Rear	F-Type Male
Adapter Front	F-Type Male
