

## 7ft (2.1m) Cat5e Snagless Shielded (STP) Ethernet Network Patch Cable - Black Part No. CG-28692

This Cat5e shielded network patch cable is an ideal solution for making a network connecting in a noisy, EMI/RFI, environment. The F/UTP shielding features an overall cable shield which provides protection from EMI/RFI noise and electromagnetic interference. This cable meets or exceeds industry standards for NEXT and return loss. The molded boot provides extra strain relief and durability. Available in a variety of colors to easily color-code your network installation.

Please Note: For maximum protection against EMI/RFI interference, use our Cat5E shielded patch panel (#03864) and Cat5E shielded keystone jacks for complete endto-end protection.

## Features & Benefits

Designed for network adapters, hubs, switches, routers, HDBaseT applications and more

Supports 1 Gigabit networks up to 328ft for fast data transmission and maximum performance

a wide variety of applications

Meets all Cat5e TIA/EIA requirements for supporting Constructed with shielded twisted pair (STP) wires, designed to protect a high speed network from noise and electromagnetic interference

Snagless connector design for high density environments and protecting the RJ-45 connector's Available in a variety of colors to color-code a network lock

## **Specifications**

General Info				
C2G	Color	Black		
757120286929	Country Of Origin	Vietnam
