

The DisplayPort HDBaseT over Cat Extender is an ideal solution for extending DisplayPort audio/video signals over a single Cat5e, Cat6, or Cat6a cable up to 300ft at a 1080p resolution. This solution is compatible with any operating system and is truly plug and play with no drivers or software required. This solution utilizes TruChoice™ power, which allows power to be supplied over the Cat cable to both the transmitter and receiver from a single power adapter placed at either the transmitter or the receiver end of the solution. HDBaseT technology supports HDCP and allows the Extended Display Identification Data (EDID) signals, i.e. communication of the display's capabilities, to pass through the extension solution ensuring that the content from the source is sent at the optimal resolution for the display. Built-in power surge protection and high ground loop immunity ensure high performance signal extension.

Features & Benefits

Extend DisplayPort up to 300 feet at a 1080p resolution	Utilizes a single Cat5e, Cat6 or Cat6a cable for extension
HDBaseT technology supports HDCP and EDID pass through	Includes a DisplayPort transmitter and DisplayPort receiver

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120293033	Country Of Origin	Taiwan, Province Of China

Dimensions

Product Width US	4.25 in	Product Height US	0.93 in
Product Length US	3.39 in
