

One component of a complete solution that, when paired with a receiver (sold separately), conquers USB length limits. This patent-pending solution extends the signal of a USB device to a host computer up to 150 feet, enabling you to place your USB projector, camera, printer, web cam, hub or other USB device exactly where you want it! Our USB superbooster keystone insert is powerful yet simple, with no drivers to install or special software required. It's also compatible with any computer that supports USB.

This plug-and-play device has a snap-in keystone type transmitter unit that works in conjunction with C2G, formerly Cables To Go, wall plates with removable keystone bezels. The insert will

## Features & Benefits

Extends 1.1 signals up to 40m (131ft) to support USB devices

## Specifications
