C2G

16.4ft (5m) MTP 9/125 OS1 Single-Mode Fiber Optic Cable (TAA Compliant) (Plenum-Rated) - Yellow

Part No. CG-31461

Make MTP/MPO your choice for high density fiber networks; it's specifically designed for fast ethernet, fiber channel, ATM and gigabit ethernet applications. Save time and money with MTP/MPO's increased ease of installation - simply pull one cable rather than twelve. Each MTP/MPO fiber assembly consists of twelve 9/125 Single-mode fibers under one OFNP plenum-rated jacket.

With our MTP/MPO, it's possible to run a single cable that automatically terminates twelve fibers in one easy plug-in. Plus, the small form factor of an MTP/MPO connector provides a higher port density. With its push-pull release mechanism, the MTP/MPO connector is easy to engage and disengage. Plus, its latch design prevents the plug from snagging when jumper cables are being routed. Straight-through pinning; immune to electrical interference.

Please Note: MTP/MPO is a registered trademark of US Conec Ltd. Attenuation testing performed in accordance with EIA/TIA-455-171A.

Features & Benefits

- Designed to support gigabit ethernet, fibre channel, ATM, or any application that requires high speed data transfer
- Plenum rated for cable runs through walls and drop ceilings with plenum air space
- Ease of installation - simply pull one cable rather than twelve
- Small form factor provides a higher port density
- Push-pull release mechanism and latch design for easy use
