

This 24-Port Cat6 110-Type Patch Panel is made for optimum performance with black electrostatic powder-coated steel and 50 micron gold-plated contacts. Every panel comes in traditional 6-port module format with 110-type terminations, and meets and exceeds EIA/TIA TSB-40 Cat6 connecting hardware specifications.

This high density 19-inch 1RU panel design lets you mount in any standard 19-inch rack or cabinet, accommodates top, bottom or side cable entry, and also saves valuable space in your rack.

The 24-Port Cat6 110-Type Patch Panel enables effortless installation with easy identification vibrant color labels for 568 A or B specifications. Each terminal offers a wide 110 termination layout and a write-on designation label with a clear holder on the front and numbering on both the front and back to provide a quick, easy way to identify cable runs.

Features & Benefits

Designed to support Cat6 cabling infrastructure
Meets or exceeds EIA/TIA TSB-40 Cat6 specifications

Large, highly visible labels for 568A and 568B wiring schemes
Modular 110 punch down block termination
