

This wall plate is an ideal solution for installations which requires the connection of a HDMI device to a projector through in-wall cabling. This wall plate features flexible HDMI pigtails, making the installation of this wall plate in a wall box easier than wall plates that require use of standard HDMI cables. This wall plate is designed to work with decorative wall plates and the aluminum construction provides durability and a long life. The keystone allows for the integration of network cabling or telephone infrastructure and will work with most brands of keystone inserts including Leviton®, L-com®, NetKey®, ADC Krone, HellermannTyton, and Allen Tel.

Features & Benefits

Supports HDMI audio/video signals from two devices

Flexible HDMI pigtails for easy installation in a wall box

Designed for use with decorative wall plate covers

Aluminum construction for durability and long life

Specifications
