

Add the finishing touch to audio/video installations with a feed-through wall plate. This wall plate is designed to mount in standard electrical boxes or mud rings. The thick stainless steel composition provides better protection than plastic wall plates in commercial environments where constant wear and tear causes damage.

Feed-through connectors and identification markings make this wall plate simple to install and easy to connect equipment. Furthermore, it is compatible with any existing wiring network. The single gang design offers connectors for HD15, 3.5mm stereo audio, composite video, left/right audio and s-video all in one wall plate. Feed-through connectors are designed to offer lossless signal transfer and maximum insertions for a lifetime of service. Mounting hardware included.

## Features & Benefits

Thick stainless steel composition Provides better protection than plastic wall plates in commercial environments where constant wear and tear causes damage	Feed-through connectors Simple to install and easy to connect equipment
Identification markings Easy to identify which connector is which	Compatible with any existing wiring network No need to rewire the entire system
Mounting hardware included Easy to install	

## Specifications

### General Info

Product Line	C2G	Color	Aluminum
UPC Number	757120404996	Country Of Origin	China
Warranty Type	Lifetime	Type	Wall Plate

### Dimensions

Product Width US	2.76 in	Product Height US	4.53 in
