

C2G HDMI Pass Through Wall Plate - Aluminum

Part No. CG-41042

The HDMI pass through wall plate allows for a clean, professional looking and seamless transition to in-wall HDMI cabling using a wall plate form factor, which offers a more secure installation option over traditional transition methods. The wall plate provides a secure mount within the wall and is not likely to be stolen or misplaced. Unlike traditional pass-through wall plates, this wall plate is constructed by using four-layer computer grade printed circuit boards (PCBs).

The PCB traces are engineered to maintain the critical impedance necessary to transfer digital audio/video signals. Made from 20 AWG steel, this strong wall plate fits standard electrical boxes, and is compatible with decorative trim plates.

Features & Benefits

Clean, professional looking wall plate form factor

PCB traces are engineered to maintain critical impedance

Constructed by using four-layer computer grade printed circuit boards (PCBs)

Made from 20 AWG steel

Specifications

| General Info | | | | |
|---------------------------------------|-------------------------|-------------------|----------|--|
| Product Line | C2G | Color | Aluminum | |
| UPC Number | 757120410423 | Country Of Origin | China | |
| Application Sector | Commercial, Residential | Warranty Type | Lifetime | |
| Туре | Wall Plate | | | |
| Dimensions | | | | |
| Product Width US | 1.22 in | Product Depth US | 1.25 in | |
| Product Height US | 2.54 in | Cable Length | 2.36 in | |
