

This USB Bluetooth Receiver is the perfect solution for adding Bluetooth capability to an audio system such as a home stereo or car audio system to receive streaming audio from a smartphone, tablet or other mobile device. The receiver requires power from a USB port on the audio system or from an AC to USB adapter. Audio is transmitted from the receiver to the audio system through an integrated 3.5mm Stereo Audio cable. Bluetooth technology provides a wireless connectivity range of up to 32 feet.

<

Features & Benefits

Supports wireless streaming audio using Bluetooth A2DP+EDR technology

Wireless connectivity up to 32 feet

USB Powered

Stereo Audio output via 3.5mm

Specifications
