

This wall plate is customizable with a range of jacks and connectors, allowing you to select the specific voice, data, audio, video, or fiber optic requirements you need. The inserts are easy to install and remove, providing great flexibility. Additionally, there is a designated space to label stations with a fine tip permanent marker on the white insert. It is compatible with NEMA standard openings and boxes, making it mountable to any electrical or surface mount box and operable with any keystone jacks or inserts.

Features & Benefits

Individual port configurability allows for specification flexibility

Fits within NEMA openings

Available in different colors to match décor
