

Power cords used in hospitals and other medical settings must adhere to strict standards for grounding reliability, assembly integrity, strength and durability, as well as regulatory standards such as NEMA and IEC specifications. These standards are in place to ensure that power cords are safe and reliable for use in demanding hospital environments.

This cable extends standard power cables for use in temporary applications, such as janitorial work. The female 5-15R connector plugs directly into the mating male power cord while the male hospital grade 5-15P connector plugs into a hospital grade supply outlet. Performance is guaranteed with a lifetime warranty so performance is never an issue. Easily recognizable with the Green Dot mark, this hospital grade power cord ensures compliance and delivers maximum performance.

## Features & Benefits

Green Dot compliant	Designed to meet the requirements of healthcare facilities
Extended grounding pin ensures that equipment is properly grounded	High visibility orange color

## Specifications

### General Info

Product Line	C2G	Color	Orange
UPC Number	757120480747	Country Of Origin	Taiwan, Province Of China
Application Sector	Commercial	Warranty Type	Lifetime
Type	Power Cord		

### Dimensions

Product Length US	25.0 FT
-------------------	---------

### Buy American Act Compliance

TAA Compliant	Yes
---------------	-----

### Technical Information

Wire Gauge	16 AWG	Jacket Rating	SJT Rated
Amperage	13 A	Adapter Rear	NEMA 5-15 Male
Adapter Front	NEMA 5-15 Female	Voltage	300.0 V
