C2G
DisplayPort to DVI-D Active Adapter Converter - Black
Part No. CG-54317

This adapter allows the DisplayPort™ video output of a laptop to connect to the DVI-D® input of a display and is perfect for applications including displaying video on an HDTV, projector, or monitor in a classroom, on a desktop, or in a meeting room. This active DisplayPort to DVI-D active adapter can be used in either DisplayPort single-mode or dual-mode outputs , providing the conversion for a DisplayPort source even when that source does not support DP++. Active DisplayPort conversion is excellent for applications where multiple DisplayPort adapters are required to connect to a single graphics card. This allows every active adapter to interface with a corresponding display.

On The Go Enhanced
Be prepared for any meeting, presentation, or event with the full confidence that you have the right connection in an ultra-compact design. The DisplayPort to DVI-D adapter can connect a DisplayPort equipped laptop or tablet to a projector, monitor, or HDTV with a DVI-D input port. The compact design of this adapter converter makes it a perfect fit for BYOD (Bring Your Own Device) applications in education or corporate environments.

Straightforward Install
This simple plug and play adapter converter does not require drivers for install and the device is powered through DisplayPort bus power, so no additional power adapters are needed.

Port Protection
The dongle-style adapter converter reduces strain on the video port. The cable between the DisplayPort connection and the adapter converter provides strain relief that protects the port from strain damage as cords are moved.

Note: When this device is connected to a DisplayPort source device that supports audio and an DVI-D to HDMI Cable with the HDMI connector plugged into a HDMI display device that supports audio both audio and video signal will be transmitted from the source device to the display device. However connecting to a DVI-D display will not allow audio to pass to the display.

Features & Benefits

Active Conversion of DisplayPort to DVI-D

Dongle style adapter reduces strain on ports

Supports up to a 1920x1200 resolution

Supports 3D Video

Specifications

General Info

Product Line	C2G		Color	Black

UPC Number	757120543176	Country Of Origin	China
Application Sector	Commercial, Residential	Warranty Type	5-Year
Type	Active Device, Adapter, Converter		

Dimensions

Product Width US	1.77 in	Product Height US	0.59 in
Product Length US	1.77 in	Cable Length	0.67 ft

Listing Agencies / 3rd Party Agencies

CE Certified	Yes	FCC Compliant	Yes

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	32 AWG
Video Resolution	1080p, WUXGA (1920x1200)	Bend Radius	51 mm
Jacket Rating	Standard / Non-Rated	Cable Diameter	5.2 mm
Data Transfer Rate	18 Gbps	Adapter Rear	DVI-D Dual Link Female
Adapter Front	DisplayPort Male	Voltage	30.0 V
