

# HDMI® HDBaseT + VGA, 3.5mm, RS232, and IR over Cat Extender Dual Gang Wall Plate Transmitter - 4K 60Hz Part No. CG-C2G30017

The HDMI HDBaseT + VGA, 3.5mm, RS232, and IR over Cat Extender Dual Gang Wall Plate Transmitter - 4K 60Hz  $allows\ 4K\ HDMI\ or\ VGA\ sources\ to\ be\ extended\ using\ a\ single\ Cat6a\ Ethernet\ cable.\ This\ is\ an\ ideal\ solution\ where\ it is\ an\ ideal\ solution\ where\ it is\ in\ ideal\ solution\ where\ it is\ in\ ideal\ solution\ where\ it is\ in\ ideal\ solution\ where\ it is\ ideal\ solution\ where\ it is\ ideal\ solution\ where\ ideal\ ideal\ solution\ where\ ideal\ ideal\ solution\ ideal\ solution\ where\ ideal\ idea$ video and audio needs to be extended to displays in conference rooms, classrooms, lecture halls, and many other installation needs that are far beyond the length limitations of standard cabling.

This transmitter extends HDMI and VGA signals over a single network patch cable. Extend 4K HDMI up to 115 feet and 1080p VGA up to 230 feet using a Cat5e or Cat6 cable. For longer 4K distances, extend 4K HDMI or up to 130 feet using a Cat6a cable.

This HDMI HDBaseT transmitter is HDCP 2.2 compliant, making sure that the connection from the source is secure. The transmitter supports PoC PD to receive power from an HDBaseT receiver with PSE module. It can also be powered by local 12V power supply and share power with the receiver via the 3-pin phoenix power out connector, so no additional power adapter is required, allowing for greater flexibility in installations. Advanced users can control IR and RS232 pass through.

This HDBaseT transmitter works with <a href="C2G30015">C2G30016</a> receivers.

Note: Ensure a solid reliable connection between the 4K HDMI HDBaseT Extender and critical equipment. We suggest using HDMI Cables with gripping connectors that provide greater port retention than standard HDMI connectors.

Note: Stranded Cat5e/6/6a patch cables may be used for HDMI extension applications up to 230ft. Shielded, solid conductor Cat6 or HDBaseT Certified Cat6a network cabling is recommended for applications where the category cable must be coiled, is run near other high-frequency signaling cables, or in high EMI/RFI environments. For best performance use an HDBaseT Certified Cat6a Patch Cable.

Supports auto switching

## Features & Benefits

Extend 4K at 60Hz (4:2:0) up to 130ft and 1080p at 60Hz up to 230ft with Cat 6a cable	Extend 4K at 60Hz (4:2:0) up to 115ft and 1080p at 60Hz up to 200ft with Cat 5e/6 cable
	WIIII Cal De/o Cable

Supports VGA resolutions up to 1920x1200 at 60Hz

HDCP 2.2 compliant, to create a secure connection between the source and display

HDMI input supports EDID - copied from HDBaseT receiver

1.51 in

Can be powered by local 12V power supply and share power with receiver via the 3-pin phoenix power out connector

All audio inputs support EDID - fixed at PCM 2CH

Independent DIP switch provided for VGA EDID Management

Supports PoC PD to receive power from an HDBaseT receiver with PSE module

Compatible Receivers: C2G30015 and C2G30016

### **Specifications**

Supports IR and RS232 pass-through

#### General Info Product Line C2G White Color UPC Number 757120300175 Country Of Origin China RS232 Commercial Features Application Sector Warranty Type 5-Year Туре Active Device, HDBaseT, Transmitter **Dimensions** Product Width US Product Depth US 3.5 in 4 16 in

#### Technical Information

Product Height US

Video Resolution	1080р, 1080р 60Hz, 4K, 4K 30Hz, 4K 60Hz	Data Transfer Rate	10.2 Gbps
Adapter Rear	RJ45 Female	Adapter Front	3.5mm Female, VGA Female, HDMI Female
Operating Temperature	0°-45°C	Storage Temperature	-20° - 70° C
