The USB-C to DisplayPort Adapter Cable allows for a direct connection of a USB-C enabled laptop or device to a DisplayPort input on a projector or display—making it an ideal connectivity option when your laptop and display ports don't match. Perfect to use while in the office or when working from home.

This adapter cable supports resolutions up to 4K at 60Hz for enhanced high definition viewing. The cable form factor of this adapter provides a convenient and straightforward solution that eliminates the need for a separate adapter and cable, removing the possibility of failure points between your devices.

You can use this adapter cable with USB-C or Thunderbolt™ 3 enabled devices, and the plug-and-play feature means no need to worry about software downloads or driver updates.

Features & Benefits

Supports resolutions up to 4K (4096 x 2160) at 60Hz for viewing high definition content

Adapter in cable form for a single cable solution

Compatible with USB-C and Thunderbolt 3 ports for more device connectivity

Plug-and-play, so no additional software or drivers needed
